"Capacity Building in Innovative Information and Communication Technologies through Free and Open Source Software in Africa"

InWEnt - Capacity Building International, Germany would like to invite organizations and individuals to express interest in participating in and shaping the programme ict@innovation. InWEnt is looking for partners who cooperate in reaching the goals of the project and participate in workshops and training courses for multipliers.

Please join ict@innovation and fill in the contact form if you are an organization, association or individual with:

- Experience in Information and Communication Technologies (ICT), either from a technical and/or business perspective;
- Interest in and experience with Free and Open Source Software;
- Part of an ICT training institution, university or other multiplier organization, regional or national ICT association or a FOSS-based company
- Interest in serving as a multiplier for the subjects below, e.g. as a trainer
- Knowledge and ideas about the subjects/actions below.

Please make sure you complete the form, which can be found at the backside of this Flyer.

InWEnt – Qualified to Shape the Future

InWEnt – Capacity Building International, Germany, is a non-profit organisation with worldwide operations dedicated to human resource development, advanced training, and dialogue. Our capacity building programmes are directed at experts and executives from politics, administration, the business community, and civil society. We are commissioned by the German federal government to assist with the implementation of the Millennium Development Goals of the United Nations. In addition, we provide the German business sector with support for public private partnership projects. Through exchange programmes, InWEnt also offers young people from Germany the opportunity to gain professional experience abroad.

it@inwent - Supporting ICT Networks in the South

InWEnt - Capacity Building International, Germany supports its partners in Africa and Asia to provide advanced knowledge in Information and Communication Technologies (ICT). The key objectives of its it@inwent programmes are to strengthen IT sectors, foster vital innovations in ICT for sustainable human development, and use ICT as enabling tool for poverty reduction. it@inwent focuses on providing IT training and blended learning, fostering business opportunities and virtual networking, and promoting innovative ICT solutions such as free and open source software.
